

Nestable Totes

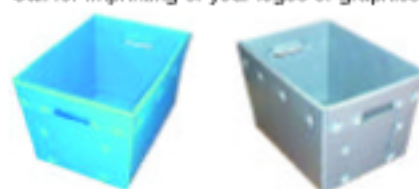

These 4mm corrugated plastic nestable totes are perfect for inter / intra office use and general purpose material handling. Nestable totes feature tapered sides, wire reinforced sonic welded rim, "soft lift" hand holes for easy, non-abrasive lifting, and a smooth inside that eliminates product hang-up.

Available in these colors: white, natural, translucent, blue, yellow, green, or red* (*when available - not all colors are in stock at all times...minimum quantities may apply).

Three sizes available:

- 8" Depth - 14.25" x 10.25" Top Inside - 12" x 9" Bottom Inside
- 11" Depth - 17" x 12.5" Top Inside - 15" x 10.5" Bottom Inside
- 11" Depth - 23.75" x 20.5" Top Inside - 21.25" x 18.25" Bottom Inside

STANDARD VACUUM FORMED HDPE NESTING TOTE BOXES

- Many In-Stock Sizes
- Excellent for conveyors & assembly applications
- Nestable
- Lightweight

Tote-All Standard Boxes are made of high-density polyethylene and come in smooth and extra-strength ribbed constructions. Perfect for applications ranging from conveyor and storage to inventory control. All are reinforced with beveled bottom corners. Special design permits boxes to be nested with lugs that prevent jamming. Special treated non-skid bottoms are available at slight extra cost. Most boxes available promptly from stock.

Specifications:

- All Boxes fit easily inside each other when empty.
- Convenient Hand Holes and Rounded Lip make carrying comfortable and easy.
