Fiberglass Nesting Containers and Trays

• Dimensional Stability • Structural Integrity • Six Colors Available • ESD Black Available - Call for pricing

Six Colors Available: Green, Gray, Red, White, Blue, Yellow

STANDARD FEATURES - (ESD Also Available):

- Made of reinforced thermoset polyester composite material.
- Withstands temperatures ranging from -60°F to +250°F (continuous) to +300°F (intermittent service).
- No maintenance required, won't dent, bend or warp.
- Strong as steel on a weight ratio, yet lightweight.
- Easily cleaned in hot water or steam using standard industrial detergents.
- Molded-in handles on most models provide safe secure handgrips.
- Eliminates metal to metal contact.

Lids for these small boxes can be used as trays.

Molded Fiberglass Conveyor & Assembly Trays

• Available in Regular or ESD • Heat Resistant to 300° F • 3 Color Choices: Gray, Green or White

Typical of 200 Series Products

Fiberglass trays are useful for die cut parts, fusibles, and heat transfer work. Special fire retardant and conductive formulations available. These trays are well suited for the drying of chemicals, pigments and pharmaceuticals. Also used for soaking, cleaning, & spill containment. 200 Series is widely used on conveyor & rack systems - they are heat and cold resistant.

Typical of
304001
305001
332001
333001
334001
335001
337001
338001

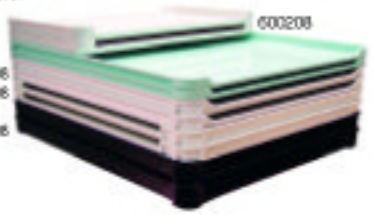
*The drop side on the 28500 through the 216101 is found on what is shown as "length" in the chart at right. The height of the short side is approximately 1/2".

Call for ESD.

Call for other sizes.

600 Series features reinforced rims & corners.

Corner Profiles for 600 Series Trays



Profiles A & B do not nest or stack. Best used in a rack system or on a conveyor line.

Profile C nests partially or completely within another.

Profile D stacks.
