

ALL PURPOSE 180° STACK AND NEST CONTAINERS

• Injection Molded for Strength and Light Weight • Designed for Rough Service

Stack and Nest Designs are the workhorses of most factory and warehouse applications.

Features

- Uniform wall thickness provides maximum strength. Load capacity: 70 lbs. per box.
- Rim handgrips on ends for easy lifting and carrying comfort.
- Containers won't rust, rot or corrode, and resist damaging effects of oil, most chemicals, solvents, water and steam.
- Containers withstand wide temperature variances.
- Uniform container weight allows accurate inventory by weight.
- Easily cleaned, making them ideal for handling unpackaged products.
- Designed without sharp edges, burrs or splinters, permitting safe handling of containers.
- Stackable with or without covers.
- Nest at 180° when empty.
- Available matching covers protect your product from moisture, impact, chemicals and pests.
- Wide range of available accessories, including covers, document holders, security fasteners, grommets, metal bar code plates, dollies, and a special grip material.
- Dollies available. See Prices Below.
- Special Colors Available - Call Ted Thorsen.

Matching Steel Dollies available. See pricing below.

Description

Returnable, reusable stack and nest containers, injection-molded from high-impact polyethylene or polypropylene. USDA and FDA approved in blue or gray. Used in general manufacturing, food processing and product distribution. Covers are available for some models. Standard color: gray, blue or red. Blue & Gray are FDA/USDA approved.

NOTE: Matching steel dollies are available for most totes below. See last column for pricing.
