

ROPAK™ 45" x 48" COLLAPSIBLE, STACKABLE, STRUCTURAL FOAM CONTAINERS

For: • Automotive, Appliance, Computer & Industrial Components • Chemicals • Plastics & Rubber • Subassemblies • Textiles

The 4548 is used extensively by the automotive industry, as it meets the specifications of the Automotive Industry Action Group (AIAG). It is available with 4-way forklift entry in seven heights with weight capacities up to 2,000 lbs. All models offer a choice of 0, 1, or 2 hinged drop doors on the 48" side. Reach-through latches are now available as an option for the 33" and 34" high models (48" sides only). This allows the operator to collapse the containers from one side, eliminating the need to walk around the container to collapse it completely.

Standard color on 45" x 48" containers is black. Call for pricing on other colors. Minimums may apply.

32" x 30" Bulk Container

Shown at Left

Ideal for:

- Automotive Components
- Bearings
- Hardware & Tools
- Metal Parts
- Plastics & Rubber
- Stampings
- Textiles

The 3230 is a strong and durable folding container with the industry's best return ratio (1.9:1 and 2.6:1). With a weight capacity of 2,000 lbs., it is ideal for high-density small to medium sized parts and is perfect for tight working spaces. Hinged drop doors are available on the 32" side and two base options are available: the standard 4-way forklift entry and a conveyable base with 2-way forklift entry. ALSO: Call for extended length collapsible units in 64.5" x 48" or 70" x 48" footprints.
