

• For Pallets & Reusable Shipping Containers • Simplify Container Control and Closure During Transit

Retractable Cargo Belts

Ted Thorsen offers a wide variety of retractable cargo restraint systems and accessories.

Besides our standard styles, colors, and lengths most commonly used in the industry, we have belts in all widths, lengths and colors to fit any application. If you have special requirements, we will give you a prompt, competitive quote on a quality belt to fit your exact needs.

\$70 minimum order. Any order less will be subject to surcharge in the amount of the difference.

APPLICATIONS:

- Returnable synthetic pallets
- Carts
- Hand Trucks
- Racks

STANDARD BELT COLOR:

- **Black** is Standard.
- Gray & Blue also available in 2" belts.
- Call for pricing.

FEATURES:

- Up to 148" working length
- 3000 lb. tensile strength webbing
- 3/8" standard mounting hole
- 9" locking feature (optional)
- One-Handed operation engagement and disengagement
- Self retracting and tightening
- Multiple colors of webbing available
- Plastic covers, loops, guides (optional)
- Tested and approved for industry standard applications

ADVANTAGES:

- Eliminates the need for steel binding or shrink wrapping to secure loads
- Minimal space needed for installation and usage
- Self retracting and locking secures unstable loads and prevents load shift
- Use of covers or guides eliminates tangled or twisted belts
- Improves efficiency and labor costs
- Prevents workplace injuries and trip hazards - no dangling straps

Use them vertically or horizontally. Metal buckles are additional. (See Below)

Base Unit w/Guide

Quick release buckle (order separately)

Cargo King™ Retractable Restraint Systems

Cargo King™ is a self-contained, self-tightening, retractable solution for securing unstable loads. Compatible with E-track and is easily attached with one hand to secure loads side-to-side, diagonally, or alongside a van body wall. The Portable Cargo King™ is perfect for moving: trucks, vans, and trailers. Appliances, furniture, racks, pallets and boxes are easily secured with its innovative self-tightening retractable belt, that allows you to move it where you need it most.

APPLICATIONS:

- Appliances
- Furniture
- Racks
- Pallets
- Boxes
- Transport

ADVANTAGES:

- No tangled belts
- No load bars to vibrate loose
- Self-storing, self-tightening belt
- May be installed with one hand
- Automatic rewind feature holds loads securely
- Multi-directional application: - side to side - around a load to the same wall - diagonal from a side wall to a rear wall

2" Cargo King™, 151" Working Length, 1,250 lbs. Load Strength
