

Parts Bins • 3 New Sizes

• Outperforms Competitors Bins! • Compatible and Interchangeable with Other Name Brand Bin Systems

Parts Bin Features:

- High-quality industrial strength
- Attractive Design & Competitive Pricing
- Label/bar code insert area on front
- Six industry standard sizes available
- Dividers (by length) available
- Hopper front optimizes accessibility
- Bins hang on louvered panels or rails
- Molded-in stacking ridge assures containers will stack securely
- Colors: blue, red, yellow, green & stone
- Full metal systems to complement Parts Bins... including cabinets, louvered panels, rail systems & mobile trucks

Shelf Bins...

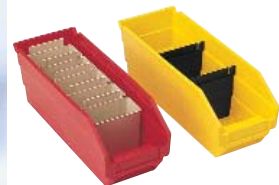

Replace wornout corrugated bins permanently with these durable, high density plastic bins.

FEATURES:

- Available in 13 sizes & 6 colors
- Bins are manufactured from FDA approved polypropylene / polyethylene
- Slotted label holder permits easy insertion of identification card
- Bins nest when empty to save space
- Wide hopper front for easy access
- Bin available in Blue, Black, Green, Ivory, Red or Yellow. Please specify.

Bin Cups Dividers

Dividers

Optional dividers fit snugly, horizontally across all bins and are uniquely designed to allow for easy part labeling via individual label slots.

XL Conductive ESD-Safe Parts Bins & Shelf Bins

are available in many sizes to meet your work-in-process requirements. Conductive XL Material is a thermoplastic polypropylene material based upon carbon black that has a surface resistance of less than 1.0×10^4 ohms or surface resistivity of $< 1.0 \times 10^5$ ohms/square. XL material has a static decay rate from 5,000 volts to 0 of less than 2 seconds. This material has a useful temperature range of 40°F to 225°F, with intermittent use recommended at the higher end of the temperature range. The electrical properties of this material are permanent and unaffected by washing.

- Designed to work with 12" and 18" shelving to enhance inventory control and part organization.
- Bins nest when empty to save space.
- Built-in hang lock allows bin to tilt out for full part accessibility. Hopper front optimizes part accessibility.
- Large flat area for adhesive identification & bar code scanning.
- Each bin can accommodate up to 3 dividers.
- Optional conductive dividers slide in easily and lock securely to eliminate part migration.

EXTRA LARGE Bins – 24", 30" & new! 36" Lengths

Organize and store your large and bulky items with these strong injection molded plastic, stackable containers. These extra large stacking containers offer a generous 2, 2½ or 3 feet in length to store your larger items. These huge stack bins are ideal for use on heavy-duty, extra deep shelving and are available in a variety of widths and heights. Heavy-duty front, back and side grips allow for easy handling. Wide stacking ledge and anti-slide lock keep stacked bins steady and prevent forward shifting. Waterproof bins resist rust and corrosion. Bins are auto-clavable up to 250°F and are resistant to extreme cold. Available in Blue, Red or Yellow.

Plastic Dolly for Extra Large Bins

Bakery Baskets

Protect your fresh baked goods with tough Dura Bakery baskets. The strength of high density polyethylene coupled with our exclusive reinforced corners give unrivaled stacking strength and dependable payload stability. The worry of costly crush damage is eliminated. These automation friendly, one-piece baskets are durable, quick and easy to handle.

Features:

- 2 & 4 way merchandiser low side (except on model NM-NPL636BB260)
- Made from FDA/HDPE approved resins
- Blind stacking "rail and groove" design
- 2-way and 4-way hand truck entry
- 100% automatable
- Plastic dollies available for selected models
- Available Colors: BLACK is Standard. Call for other colors available by special request including: blue, brown, burgundy, green, gray, red or yellow.**

**Color is dependent on stock availability at time of order. - Minimum quantity requirements may apply.

SmartTray™
MT-CBNTC-MTRAY... \$27.17 EACH

SmartTray™ Features:

- Designed to minimize PCB handling damage and provide superior ESD protection.
- The 18" x 26" footprint handles multiple-sized boards.
- The ESD-safe SmartTray features bar coding and color-coding accessories for easy identification and efficient productivity.
- Molded from premium ESD protective fiberglass.
- Standard color is black.
- SmartTrays are compatible with all bottom-loaded tray carts.
- SmartTrays can be stacked by themselves, and with other trays of the same footprint.
- Maximum load rating: 150 lbs., evenly distributed.
- Outside Dimensions: 25³/₄" x 17³/₄" • Inside Dimensions: 23¹⁵/₁₆" x 15¹⁵/₁₆" • Height: 1¹/₈"

SmartTray™ Inlay Features:

Premium Inlays:

- Rubber inlay, two layer - blue (topside) and black (bottomside).
- 24.125"W x 16.1"L • 0.06" Thickness
- Approx. Packaged Weight: 1.5 lbs.
- Provides maximum ESD protection, as well as superior resistance to heat, abrasion, & chemicals.
- The soft dissipative top layer makes it ideal for use in soldering and assembly areas.
- Easy to clean & maintain.

Economy Inlays:

- Vinyl inlay, single layer - blue
- 24"W x 16.125"L • 0.125" Thickness
- Approx. Packaged Weight: 1.5 lbs.
- Provides soft-surface inlay for cushioned PCB transport. Inlay provides static dissipative ESD protection.
- Not recommended for use in soldering and assembly applications.

Kitting Trays • ESD & Non-ESD

These Kitting Trays are available in 3 materials:

- Benstat™ Blue static dissipative (BAS)
- Bentron™ Black conductive (CAS)
- Also available: Natural gray (NAT) - Non-ESD polypropylene base resin material

Insert cups and covers are available for kitting trays. Sold separately. Call for pricing.
