Posts

Posts are numbered on vertical 1" (25 mm) increments to help ensure fast and level assembly. Call Ted Thorsen for appropriate stem casters. Height includes leveling bolt and cap. For special length post, apply price at next higher length plus a cutting charge of \$10.00 per post. Eaglebrite® posts feature air-dry lacquer and can be used for walk-in coolers. *Freight class is 50.0.*

BOXER™ Tubular Steel Box-Design

Welded Tubular-Box Design

Welded Seam Corners

Shelves

Boxer™ Shelves are constructed of 20 gauge steel with full welded box formation in front and back of the shelf and have formed channels on both ends. All corners are lapped and welded for additional strength. The box formation is welded on a 6" center minimum to provide integrity the entire length of the box. All shelves have a box profile height of 1 1/4". All box shelves accommodate either clip or nut and bolt connection to the upright. Shelves are manufactured in 24", 30", 36", 42", and 48" widths - and 9", 12", 15", 16", 18", 21", 24", 30", 32", and 36" depths.

Posts

All posts are 14 gauge steel and are manufactured in 1 foot increments.

- The box post (top right) provides unobstructed shelf access. One box post takes the place of two angle posts at the front of a shelving unit.
- The offset angle post (lower right) reduces shelf accessibility by 1 inch per end.

Standard Finish for shelves and posts is Gray Enamel. Call for alternate colors (sand, blue, tan, putty, red, black, or pearl white) available at additional charge.

Call for pricing on 22 or 18 gauge steel.

Box Post
Holes 1 1/2" O.C.

Offset Angle Post
Holes 1 1/2" O.C.

Open & Closed Type Shelving Units

Heavy duty steel shelving engineered to fit any storage need. Ideal for warehouse, stockroom or office areas. Fast, easy assembly. Use independently (starter sections) or in continuous row (adding add-on sections). Shipped knocked down. Gray baked enamel finish is standard. Choose open or closed designs. Many other heights and designs available - call for pricing and information.

5-Shelf Open & Closed Starter Sections

Open Starter Section consists of:
4 Posts, 2 Pairs Side Braces, 1 Pair Back Braces, Shelves

Open Add-On Section consists of:
4 Posts, 1 Pair Side Braces, 1 Pair Back Braces, Shelves

Closed Starter Section consists of:
4 Posts, 2 End Panels, 1 Back Panel, Shelves

Closed Add-On Section consists of:
4 Posts, 1 End Panel, 1 Back Panel, Shelves

Shelf Load Capacities: (evenly distributed pounds per shelf)
36"W x 12"D, 18"D, or 24"D = 850 lbs. • 36"W x 30"D = 650 lbs.
48"W x 12"D, 18"D, or 24"D = 550 lbs. • 48"W x 30"D = 500 lbs.

7-Shelf Open & Closed Starter Sections

Rivet-Rak / SpaceMaster Rivet-Rak Industrial Steel Shelving

Rivet-Rak™ Steel Shelving brings both ease of assembly and unobstructed access. Double rivet beam on top and bottom provide stability. Single rivet beams provide maximum vertical space on intermediate levels. Shelves adjust on 1½" centers. Double entry access as no diagonal brace is required. Boltless clipless construction assembles in minutes. Custom configurations available. Call for pricing.
Note: Particle Board sold separately.

Features:

- Wide span capability
- Shelf sizes up to 48" x 96" • Standard heights to 16 available
- Shelves are adjustable on 1½" centers
- Various sizes, shelf capacities, & configurations available
- Particle board shelves or wire decking available (call).
